### ◆ 599 SOMERVILLE AVENUE, SOMERVILLE, MA

599 Somerville Avenue is a modern architectural centerpiece within the Somernova campus, designed to house cutting-edge life sciences and tech companies. Its façade features King Klinker America's thin brick, a durable and sustainable material that enhances its visual appeal and supports its LEED Platinum certification goal. Combining timeless style with functionality, the building reflects innovation and environmental stewardship, seamlessly blending form and purpose. 599 Somerville Avenue is a testament to forward-thinking architecture, offering a premier space for innovation and collaboration.
