Size | American Imperial Size

◆ FAMILY PRACTICE | WEST JORDAN, UTAH

The building, located in West Jordan, Utah, features a stunning facade clad in Black Beauty thin brick in American Imperial size. This choice of material lends the structure a timeless, professional aesthetic, aligning with its function as a healthcare hub.

Architecturally, the building is a modern, multi-tenant medical office space designed to house various healthcare services, including RPT Physical Therapy, Vitae Chiropractic, and Families First Pediatrics, which provides pediatric medical, dental, and orthodontic care. The contemporary design employs clean lines and a neutral color palette, with large windows strategically incorporated to maximize natural light and create an inviting atmosphere.

The interior layout is designed for functionality and efficiency, supporting smooth patient flow while maintaining privacy for the individual practices. Each tenant occupies a dedicated area tailored to their specific needs, while shared amenities such as spacious waiting areas and restrooms are centrally positioned for convenience. Strategically located, the building is easily accessible to residents of West Jordan and neighboring communities. Ample on-site parking ensures convenience for patients visiting the various practices housed within.

The building's design reflects a commitment to creating a cohesive, patient-centered environment, combining modern architectural elements with practical healthcare solutions. By using Black Beauty thin brick for its facade, the structure achieves a polished and enduring presence in the community.
